Typography & Styles

Primary Font

Our primary typeface establishes a clear and consistent typographic hierarchy across the website. It is used for headlines, subheads, and body text to ensure readability, responsiveness, and visual cohesion across breakpoints. This font reinforces our brand's tone—modern, accessible, and confident.

Color System

Primary Colors

These six shades form the core of our visual identity. From crisp whites to grounded neutrals and soft tonal variations, this palette is designed to feel calm, modern, and adaptable across print and digital applications. Each color plays a specific role in establishing hierarchy, contrast, and clarity.

Photography

Photography Style

Natural & Minimal

Use soft, diffused lighting and clean compositions to highlight materials and form. Styling should be minimal to keep the focus on the product.

Grounded in Craft

Showcase craftsmanship through close-ups, textures, and moments of making. Environments should feel warm, lived-in, and intentional.

Earth-Toned Palette

The supporting color palette is inspired by natural materials—wood, clay, and stone. These hues create a warm and calm, tactile, and timeless visual tone that complements the photography.

Photography People

Authentic & Approachable

Portraits should feel natural and relaxed, capturing real expressions and a sense of personality. Avoid overly posed or stylized compositions.

Contextual & Professional

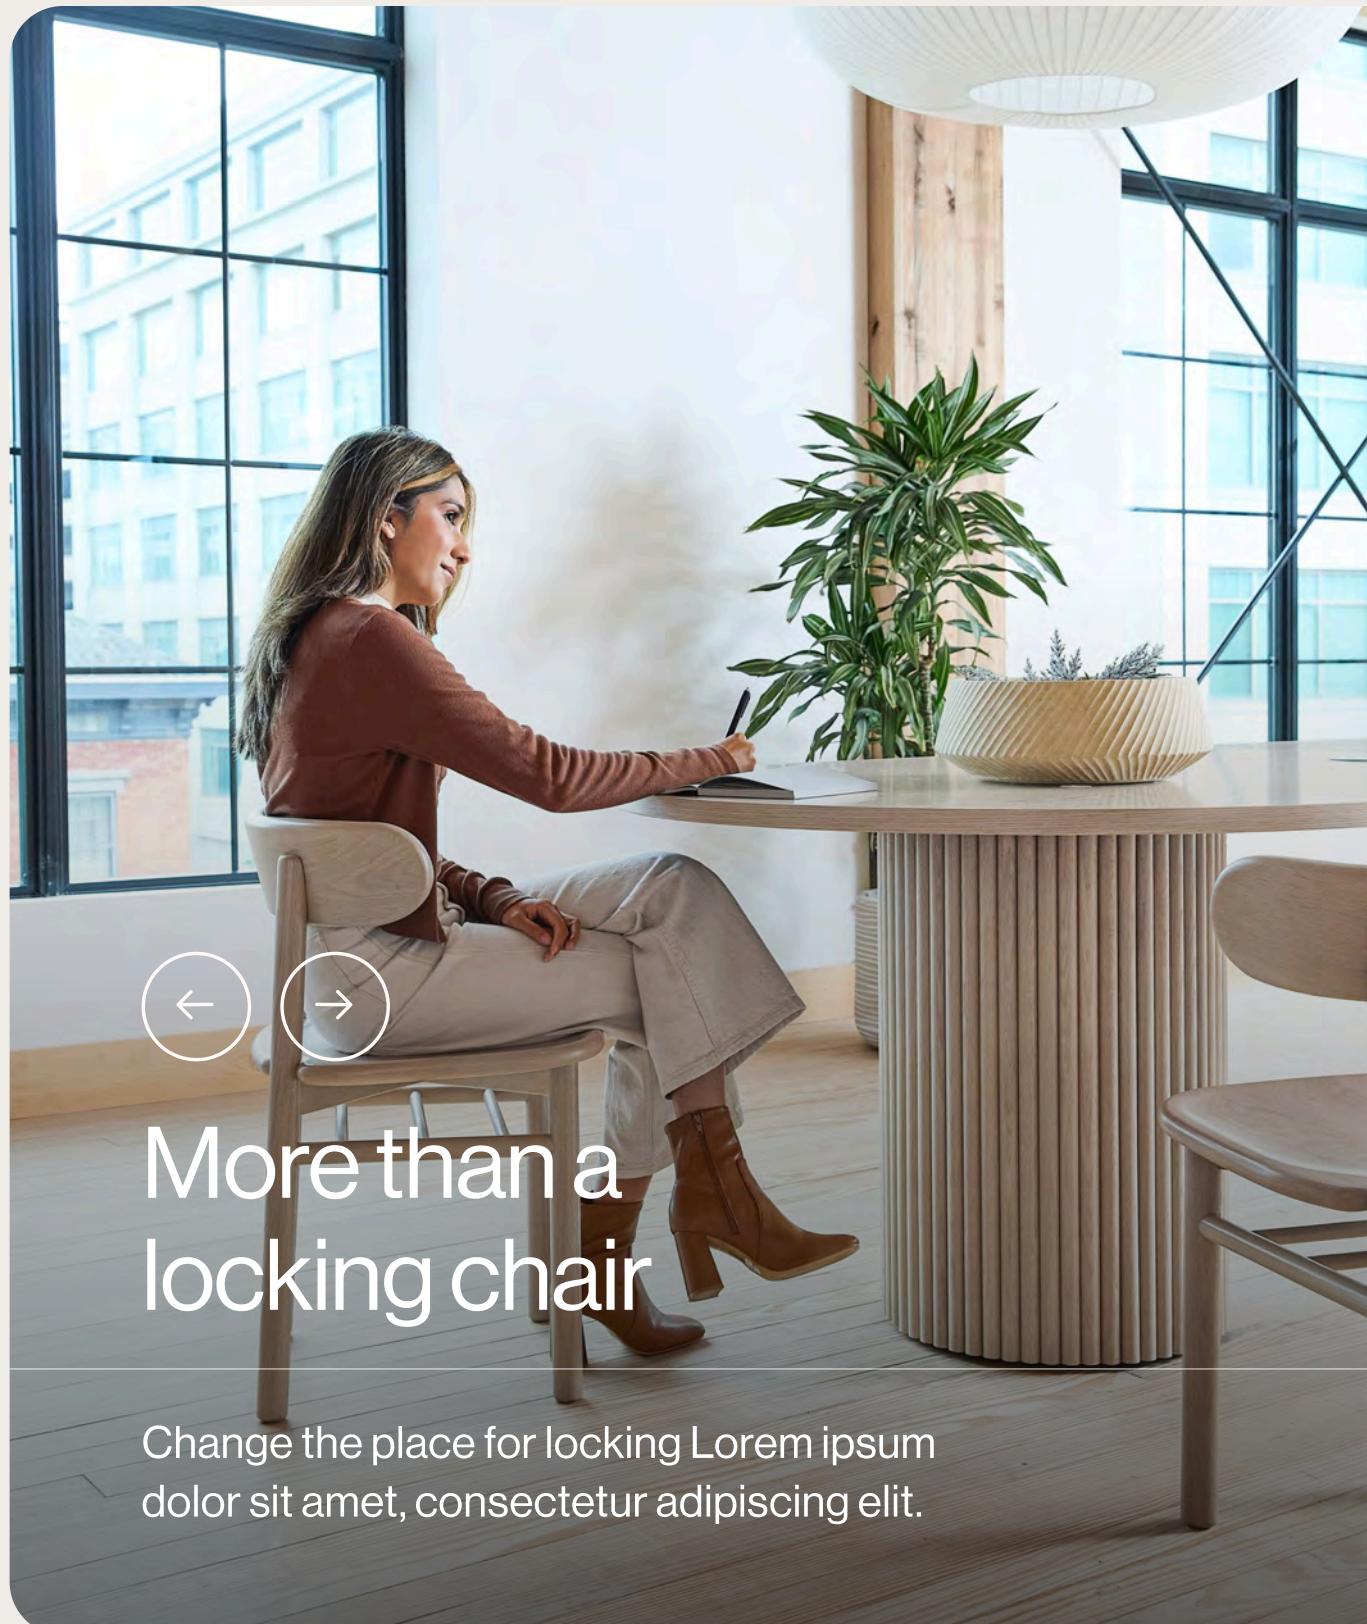

Photograph people in real environments that reflect their craft or role—offices, studios, or workshops. Use shallow depth of field to keep the subject in sharp focus while subtly softening the background.

Warm, Natural Light

Prioritize soft, even lighting that flatters skin tones and enhances clarity. Backgrounds should be clean, cohesive, and in harmony with the broader color palette.

Our woodworking techniques have been refined through generations of artisans, each teaching the next what true quality means.

[Learn About Our Craft](#)

• 01 Our furniture carries the quiet strength of the region—refined over time, passed down through generations, and built to last for generations more.

↗ Forest to Table ↗ Forest to Table

• 02 Our roots go back to 1876, when German immigrants brought woodworking traditions to Jasper, Indiana.

Honoring Our Materials

150 Years of Woodworking
Know-How. With over a century of experience working with the forests around us, we know how to craft in a way that respects and enhances real wood.
